

EV9347-20

# High Flow CSR Plus-XC<sup>2</sup>

Delivers premium quality water for combination applications

High Flow CSR Plus-XC<sup>2</sup>: EV9347-20

XC<sup>2</sup> Replacement Cartridge: EV9613-10

EC210 Prefilter Cartridge: EV9534-26

SS-IMF Cartridge: EV9799-32

## BENEFITS

One system provides premium quality water to high flow fountain, coffee and ice machines

New and improved Micro-Pure II media inhibits the growth of bacteria

Ideal where extreme water conditions demand larger capacity filters and surge tank to meet peak demand flow requirements

Reduces chlorine taste and odor and other offensive contaminants that can adversely affect the taste of beverages

Precoat submicron technology reduces dirt and particles as small as 1/2 micron in size and reduces health contaminants such as cysts

20" prefilter captures larger dirt particles

Remote mounted SR-X System with SS-IMF cartridge inhibits limescale buildup in ice machines and coffee brewers

Sanitary cartridge replacement is simple

NSF Certified under NSF/ANSI Standards 42 and 53

## INSTALLATION TIPS

Choose a mounting location suitable to support the full weight of the system when operating

Use 3/4" water line

Fountain equipment connections are made to the outlet part of the system before the SR-X system

Coffee brewer and ice machine connections are made after the SR-X feeder; a tee is required

Install vertically with cartridges hanging down. Allow 2-1/2" clearance below the cartridge for easy cartridge replacement

Flush cartridges by running water through flushing valve for five minutes at full flow

## OPERATION TIPS

Change cartridges on a regular 6 month preventative maintenance program

Change cartridges when capacity is reached or when pressure falls below 10 psi

Change SS-IMF cartridge before Hydroblend™ compound is completely used up

Change prefilter cartridge when excessively dirty

Always flush the filter cartridge at time of installation and cartridge change

## APPLICATION/SIZING

For multiple equipment and combination applications

High volume installations

XC<sup>2</sup> cartridges provided for additional capacity

Rated Capacity: 48,000 gallons

## SPECIFICATIONS

Overall Dimensions: |  
29.69"H x 31.58"W x 6.75"D  
(excludes tank and SR-X)

Inlet connection: 3/4"

Outlet connection: 3/4"

Service Flow Rate:  
Maximum 6.7 gpm (25.4 Lpm)

Rated Capacity: 48,000 gallons

Pressure Requirements:  
10 - 125 psi (0.7 - 8.6 bar), non-shock

Temperature: 35 - 100°F (2 - 38°C)

No electrical connection required

Shipping Weight: System is packed in two boxes and can be shipped via UPS. Box 1, System: 42 lbs.; Box 2, Surge Tank: 28 lbs.

Operating Weight: 50 lbs. system; 60 lbs. tank

The contaminants or other substances removed or reduced by this drinking water system are not necessarily in your water. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used with disinfected water that may contain filterable cysts.

## High Flow CSR Plus-XC<sup>2</sup>

## WARRANTY

Everpure water treatment systems (excluding replaceable elements) are covered by a limited warranty against defects in material and workmanship for a period of five years after date of purchase. Everpure replaceable elements (filter cartridges and water treatment cartridges) are covered by a limited warranty against defects in material and workmanship for a period of one year after date of purchase. See printed warranty for details. Everpure will provide a copy of the warranty upon request.

System Tested and Certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of:

Standard No. 42: Aesthetic Effects  
Chemical Unit  
Taste and Odor Reduction  
Chlorine Reduction  
Mechanical Filtration Unit  
Particulate Reduction, Class 1:  
99.9+% reduction of particles  
one-half micron and larger in size

Standard No. 53: Health Effects  
Mechanical Filtration Unit  
Cyst Reduction
